During our discussions with the Potter County Sheriff's department about security issues they encourage us to call **379-2900** to report suspicious activities or stray dogs ... license plate number, vehicle description and location will help them with their investigation.

Some suggestions ... get to know your neighbor, walk in pairs, enter **379-2900** in your cell phone and carry it with you.

For an emergency call **911**.

Be Prepared, Stay Alert and Remain Calm.

## SERVICE PROVIDERS

---

The following is a list of service providers primarily compiled by resident Lelan Callaway based on personal experience and on feedback from other residents in the neighborhood.

### **A recommendation is not a guaranty of quality.**

Be a wise consumer. We recommend you speak to several service providers before making any decision to hire someone and use common sense. Consider whether you want someone licensed and bonded and if they have the appropriate licenses. Licenses are there to protect you.

Links are provided that will allow you to do some checking up on the provider. Please note it is your ultimate responsibility to ensure that the provider has obtained any necessary permits. These permits provide you with a good measure of protection.

Additional names will be added as obtained or recommended by residents.
